

Guest Speaker: Eric Rosenfeld

Hudson Valley CyberSecurity Consortium Presents: CyberSecurity and IBM Z-Series Mainframes

Eric Rosenfeld, CISSP®, joined IBM as a Software Engineer in mainframe software service and has been developing security products for over two decades. He has implemented security solutions in a number of products and is currently a Lead Designer and Developer for TSO/E, the interactive environment on z/OS.

Room opens : 5:45

Time: 6:00-8:00 p.m.

Date: Sept 27th, 2016

**Location: Marist College, 3399 North Road, Poughkeepsie,
NY 12601, Hancock Bldg. Room 2023**

Pre-registration NOT required

This session will be a survey of how security is built into z-series machines and the software that runs on the z/OS platform. It will start with a discussion of the security features in the hardware and expand into the operating system and applications that run on the mainframe.
